Kia Seltos

Life is what you make it

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving.

It's why we create the spaces and the time you need to bring ideas to life. Very like the experience that awaits you behind the wheel of every Kia. With our design, space innovation, purpose driven technology and built in sustainability, we aim to inspire every time you encounter the Kia brand.

Because you never know where your next big idea awaits. But they are out there. Waiting to be discovered. So, what are you waiting for? Get moving. Get inspired.

Overseas model shown

Go your own way

Seltos stands apart in the popular world of compact SUV's. Sophisticated, assertive, highly intelligent, it's hard to imagine a more spirited vehicle, or one that expresses your own individualism so eloquently.

Overseas model shown

Bold design that catches the eye

From every angle, Seltos epitomises the distinctive, striking exterior design that has gained worldwide acclaim and become the hallmark of Kia.

The long bonnet, muscular front bumper and sharp creases pressed into the bodywork all speak to the purposeful intent of the vehicle. The wide tiger-nose grill continues the theme, as does the vehicle's tapering line to the rear.

This commanding and confident presence is reiterated in the intricate design of LED headlights, the 3D multi-layer indicators and LED fog lights. Also notice the rear bumper with its metallic muffler effect, another nod to Seltos's dynamic, sporty nature.

Seltos offers a choice of 16, 17 or 18 inch premium crystal-cut alloy wheels to complete the package.

Not all features are available on all models.

Step into the future

In the cabin of your Seltos, you'll find the perfect expression of contemporary automotive design. The use of high-quality materials, the advanced ergonomics and impressive technology all elevate your driving experience.

Sitting comfortably with a commanding view of the road, you have easy access to the many driver assistance technologies. This lets you focus on driving and reduces fatigue. Everything is clearly displayed on two screens, the 10.25-inch infotainment touchscreen and 7.0-inch LCD instrument cluster.

Technology also plays its part in keeping you comfortable throughout your journey. Three-stage heated seats ensure that both driver and front seat passenger are snug and warm even on the coldest days. The seats also feature the additional benefit of a three-stage ventilation system to provide different levels of comfort during warmer days. The climate control is one-touch simple; you simply set your preferred temperature and the automatic system takes charge until you change or cancel it.

Along with a BOSE eight speaker, premium sound system, the cabin is fitted with a Sound Mood Lighting System, emitting soft light from the door panels. The system pulses in time to the beat of the music, with eight customisable colours and six themes, including a unique 3-D patterned surface on the door panels.

Not all features are available on all models.

Safety that's with you all the way

Kia's comprehensive safety systems work together to ensure you and your passengers are well protected, whatever your journey brings.

Seltos is fitted with six airbags, as well as a suite of electronic vehicle safety systems. These include Kia's vehicle stability management system, incorporating Traction Control and Electronic Stability Control.

The vehicle is also fitted with ABS and Brake Force Assist both ensuring your brakes give optimal performance at all times. Helping you at slower speeds, front and rear parking sensors make easy work of negotiating narrow openings and tight spaces, and Hill Start Assist ensures smooth take-off, even on steep inclines.

A range of alerts and assists, including Safe Exit Alert, Driver Attention Alert, Blind Spot Collision Avoidance Assist and Rear Cross Traffic Collision Avoidance Assist, are there to protect you when your view is blocked or isn't clear.

An elevated driving experience

In the right vehicle even the most mundane journey can become a pleasure that lifts the spirits. Seltos is one of those rare vehicles. Seltos offers an exciting choice of newly developed third generation Smartstream petrol engines. These highly efficient power plants deliver performance while improving fuel efficiency and lowering emissions.

Choose from the Limited AWD, featuring a dynamic 1.6 litre T-GDI turbo petrol engine with 7-speed dual clutch transmission, or models powered by a naturally aspirated 2.0 litre petrol engine with intelligent variable transmission. Balancing liveliness with smoothness, both powertrains reward you, whatever your journey.

To further elevate your driving experience, Seltos is equipped with Drive Mode Select. A single turn of a knob lets you make your Seltos more responsive or reduce its petrol consumption. Eco maximises fuel saving, while Sport increases throttle response as well as stiffening the suspension. Normal mode provides a careful balance between the two.

Overseas model shown

Plug into advanced tech

The technologically advanced Seltos has an impressive 10.25-inch infotainment touchscreen equipped with split-screen functionality. The screen displays up to three applications simultaneously, e.g. rearview monitor, navigation and media, giving you even greater control of the vehicle when you need it.

Certain apps on your smartphone can be paired with the infotainment system using Apple CarPlay™ or Android Auto™. To keep your phone charged on longer journeys there's a wireless charging pad at the front of the centre console.

Not all features are available on all models.

The exciting tech isn't confined to your touchscreen. The smart key you carry in your pocket or bag lets you lock or unlock your Seltos remotely at the touch of a button. There's also an electrochromic rear-view mirror, which automatically controls the glare from the headlights of the vehicle behind you.

ECO-CONSCIOUS

SO YOU VALUE SUSTAINABLE LIVING? WE DO TOO.

That's why we take pride in rising to meet the expectations and challenges of the 21st century while making tangible contributions to the preservation of the environment and sustainable development of society.

Our environmental research centre spearheads our drive for the production of clean hybrid and fuel-cell vehicles to lead the way to eco-friendly cars for a greener tomorrow for you, your children and all of us.

From design through to recycling, we create innovative products, adhering to state-of-the-art Design for Recycling (DfR) guidelines. Even at the end of your car's life, we aim for eco-friendly return and treatment.

Operating a rigid process, we guarantee environmental protection in the treatment of harmful waste substances. These are then recycled or recovered, ensuring the highest level of environment protection.

As you can see, what you do on a small scale with your household refuse, we at Kia do on a large scale.

5 YEAR Warranty Programme (OR UP TO 100,000 KMS)

All new Kia Passenger Vehicles come with an impressive 5-Year/100,000 km (whichever comes first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

5 YEAR Roadside Assist

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be despatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.

INCIDENT CARE

If you and your new Kia were unfortunately involved in an incident or crash that requires body repairs to your Kia, Kia Incident Care is here to help you, and is free for the first five years.
