

Kia Tasman

Pre-release brochure

Movement that inspires

APRIL 2025

Easy choice. Tough decision.

You need a rugged ute that can handle the most challenging terrain and a luxurious interior equipped with the latest technology.

The Kia Tasman makes the choice easy, combining exceptional off-road capability with an unmatched level of refinement.

Then, you discover just how many ways you can customise your Tasman with genuine Kia Accessories.

Now you have some tough decisions to make...

Movement that inspires

When it comes to tough
we've earned our stripes.

Tasman is Kia's first ute, but certainly not our first offroader.

We've been building some of the world's toughest military vehicles since 1973.

So when we designed the Tasman, we put all of that experience into ensuring it was fit for purpose and ready for any challenge.

Built to win uphill battles.

Tasman prototypes have endured 18,000 rounds of stress testing on some of the world's toughest terrain, from navigating desert dunes in Dubai, to extreme off-roading in California and Australia and deep water wading trials in Kia's Autoland test facility in Gwangju, where we put our military vehicles through their paces.

Tough outside Tough to beat inside.

The Kia Tasman sets new standard for interior comfort.

The Kia Tasman's cabin is a step up from the ordinary with the latest technology, a high resolution near 30" Panoramic Display and precisely crafted, satisfyingly solid controls that enhance the quality feel of the interior.

The rear seat is no afterthought. The second row offers ample space with sliding & reclining rear seats (X-Line & X-Pro only), that slide the cushion forward to provide comfort and support for long trips. Lifting the seat cushion reveals a hidden tray designed to keep your gear neatly organised and safely out of sight.*

Kia Connect™ Your digital co-pilot.

Set a comfortable cabin temperature before you get in, remotely lock or unlock the doors from kilometres away and keep an eye on your Tasman when you hand over the keys to someone else. You can do all this and more with Kia's connected vehicle service and with Over the Air (OTA) Updates, you always have the latest performance and safety software without needing to visit a dealership or service centre.

*May apply to specific models only. More information to be provided.

Load it up Genuine Tasman Accessories.

The Kia Tasman accessories range is specially designed for New Zealand conditions and the unique needs of Kiwi ute owners. Tasman accessories are currently in development, with the following as examples of what could be available in late 2025.

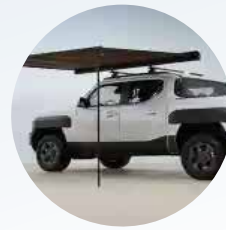

Seat Protectors

Roof Rack

Sport Bar Kit

Roof Awning

Cargo Zone

Electric Roller Cover

Load Slide

Side Steps

Towbar Kit

Towing Mirror

Snorkel Kit

Steel Bash Plate

A Tasman for every occasion.
