

Bold design that catches the eye.

From every angle, Seltos epitomises the distinctive, striking exterior design that has gained worldwide acclaim and become the hallmark of Kia.

A prominent grille and lighting arrangement, complemented by a futuristic wheel design, give the new Seltos a powerful presence on the road, front and back.

An intuitive interior space.

Horizontal design elements emphasize width and spaciousness. Displays and controls are optimally placed for high visibility and easy reach with ample headroom and legroom for everyone. Seats are firm and supportive to provide comfortability.

A human approach to technology.

Here the driver is comfortably in command. A gently curved instrument display sets a 4.2-inch instrument cluster at the center, while to the side, a tasteful 8-inch audio display keeps entertainment data well organized and in clear view. EX and Limited trims gain an integrated 10.25" Cluster & 10.25" Touchscreen Infotainment.

Exclusive to Limited trims is the colour Head-up Display. By projecting information such as current speed, posted speed limits and navigation information in your line of sight, the colour Head-up Display can help you keep your focus in front of you.

Driving technology that protects.

Sharing the road safely means driving in sync with other drivers, and staying in control of your speed. The new Seltos gives you real advantages, with the latest Advanced Driver Assistance System (ADAS) technologies.

Smart Cruise Control is able to maintain a specific speed set by the driver. The distance to the vehicle ahead can be selected from 1 to 4 levels, and automatically drives while maintaining the vehicle distance and set speed. SCC automatically stops the vehicle when the preceding vehicle stops, and automatically starts when the preceding vehicle starts again within 3 seconds. After 3 seconds, the vehicle starts when the driver operates the accelerator pedal or as a switch.

Blind-Spot Collision-Avoidance Assist (BCA)*

When operating the turn signal switch to change lanes, BCA provides a warning if there is a risk of collision with a rear-side vehicle. If there is a risk of collision with a rear side vehicle when exiting a parallel parking spot, it automatically assists with emergency braking.

Intelligent Speed Limit Assist (ISLA)

ISLA recognises the speed limit on the road with the front view camera and navigation system, and warns the driver when driving over the speed limit.

Rear View Monitor (RVM)

The Rear View Monitor displays video of the situation behind the vehicle for safe parking.

*Available on LX+, EX & Limited models.

Kia confidence goes further.

All new Kia Passenger Vehicles come with an impressive 5-Year/150,000 km (whichever comes first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be dispatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.

Information contained herein is for comparative purposes only. Specifications at any given time may vary to the above.

Driving range figures standards are calculated using the World Harmonised Light Vehicle Test Procedure (WLTP). Actual results achieved will differ according to operating conditions and driving style.

^{**} Not all handsets may be compatible.

^{***} Apple CarPlay: Requires an iPhone 5 or later and it is recommended to always update your iPhone to the latest iOS release. Use the Apple Lightning cable provided with your phone, or Apple certified Lightning cable.

^{****} Android Auto: Requires an Android phone with Android 5.0 Lollipop or higher. It is recommended to always update your phone to the latest OS release. Use the USB cable provided with your phone.
