PV5

Fully electric

Endlessly versatile

Movement that inspires

The new Kia PV5. A giant leap for vankind.

The Kia PV5 is an entirely new concept in electric mobility that can be configured to transport passengers, carry cargo or become a mobile workspace.

Up to 416km* between charges, the PV5 adapts to you, delivering smart connectivity and movement that inspires new ideas.

*Cargo Long Standard Roof (WLTP)
Overseas Model Shown

PV5 Cargo

Drive your business forward

Cargo Standard Roof: Arriving Q2 2026. Cargo High Roof: Arriving Q1 2027.

The PV5 Cargo is a versatile electric delivery vehicle and mobile workspace all in one.

Need to run tools or lights on site? Just plug into the PV5's Vehicle-to-Load (V2L) outlets for 240V AC power wherever you need it.

The PV5 has two V2L outlets - one in the cargo area and an exterior V2L in the charging port accessed by an optional V2L adaptor.

The height of flexibility.

Available in two roof heights, the PV5 Cargo offers a maximum of 5,165 liters of cargo space with up to 1,815 mm of interior height for tall loads*.

Choose the standard height roof for 1,520mm of interior height and 4,420L of cargo capacity

Payload Capacity is up to 765kg for standard roof models**. The low 419mm rear step height allows for easy loading as well as providing a versatile work surface.***

* Cargo Long Hight Roof Variants Only.

** Payload is the maximum weight an electric van can safely carry, calculated as the difference between the Gross Vehicle Weight and Minimum Kerb Weight. Payload will vary based on optional extras chosen.

*** Preliminary Specifications. Subject to Change without Notice.

PV5 Passenger Fully loaded for comfort

7-Seater Passenger Van: Arriving Q4 2026.

Overseas Model Shown

Overseas Model Shown. NZ Model May Differ

Overseas Model Shown

From school runs to camping trips, the PV5 Passenger delivers the space, comfort and safety every journey needs.

The PV5 Passenger comfortably seats 7 but with up to 3,430L of available luggage space when rear seats are folded, it's also an incredibly versatile hauler.

Standard features include a 12.9-inch touchscreen with Apple CarPlay and Android Auto, auto temperature control and heated front seats to make every journey comfortable.

Overseas Model Shown

There is no shortage of charging options in the PV5, with a wireless charger and 240V, three-pin V2L connection in the centre console, as well as multiple USB Ports for phones and laptops.

Kia Connect

On the job or on the move, the Kia PV5 delivers a smarter, connected experience with Kia Connect.

Remote Control

Lock or unlock doors, start the engine, and set the perfect temperature—all before you step inside the PV5. With Kia Connect, control is always in your hands, right from your phone.

Remote Vehicle Management

Monitor your PV5's status anytime, from anywhere. Kia Connect provides updates and maintenance alerts, so you're always ready for the road.

Safety & Security

Stay protected with intelligent safety alerts and features, designed to keep you and your loved ones secure.

Over-the-Air (OTA) Updates

With Over-the-Air (OTA) updates, your vehicle's software, navigation, and features stay current. Enjoy the latest features and performance improvements. Stay on track with updated routes and points of interest for a smoother journey - all without visiting the dealership.

Kia eCall emergency system

In case of an accident where the airbag is deployed, this feature will automatically contact the Kia Connect 24/7 call centre for your safety. The dedicated SOS button allows you to call the centre yourself if necessary.

Free Kia Connect & OTA Updates

A pair of safe vans

To ensure the safety of you and those around you, the Kia PV5 Passenger and Cargo are equipped with Kia's Advanced Driver Assistance Systems (ADAS).

Highway Driving Assist/Lane Keeping Assist 2
Highway Driving Assist maintains a safe distance from the vehicle in front on expressways/highways while also maintaining the driver's selected speed.

Forward Collision Avoidance Assist
The system warns the driver when the preceding vehicle brakes abruptly or when a stopped vehicle, pedestrian or bicycle is in front of the vehicle. If necessary the car will automatically apply the brakes to prevent a collision.

Blind-Spot Collision-Avoidance Assist
When exiting a parallel parking space, automated braking assistance avoids collisions with passing vehicles. The system produces a flashing display on the mirror and an audio alarm is activated when the system detects a vehicle approaching on the side when the turn signal is activated for a lane change.

Smart Cruise Control
When driving on motorways and highways, the system maintains a safe speed in line with the traffic, keeping a safe distance from the vehicle ahead and bringing the vehicle to a stop in traffic before smoothly resuming when conditions allow.

ADAS is only intended to assist the driver. Be attentive while driving at all times. / Functions may not operate smoothly due to road or driving conditions. / Please refer to the user's manual for details.

A PBV for everyone.

The PV5 is the first in a series of multipurpose Kia EV's. Look to Kia to lead the charge in the future of electric mobility.

PV5

PV7
COMING 2027

Total Cost of Ownership

Enjoy fewer service interruptions with extended intervals of up to 2 years or 30,000km (whichever comes first).

For your PV5 this means more time on the road, less time in the workshop, and lower maintenance costs, helping maximise uptime and deliver a stronger total cost of ownership for you or your business.

As the PV5 is a fully electric vehicle, it also unlocks fuel savings of up to \$3,500 per year*. With lower and more stable energy costs than diesel, you benefit from reduced running costs and greater cost predictability, making every kilometer more efficient.

*Based on Industry Averages.

Towing Capacity - Braked / Unbraked (kg)	750kg / 750kg	
Maximum Towball Download	75kg	

Information contained herein is for comparative purposes only. Specifications at any given time may vary to the above.

* Driving range figures standards are calculated using the World Harmonised Light Vehicle Test Procedure (WLTP). Actual results achieved will differ according to operating conditions and driving style.

** Charging times of the high-voltage battery may vary according to the condition and durability of the high-voltage battery, charger specifications and ambient temperature.

*** Not all handsets may be compatible.

^ Charge time with 350kW DC ultra-fast charger. Actual charge will vary with options, driving conditions, driving habits, vehicle maintenance, charging practice, battery age, weather, temperature and your vehicle's condition.

∞ Apple CarPlay: Requires an iPhone 5 or later and it is recommended to always update your iPhone to the latest iOS release. Use the Apple Lightning cable provided with your phone, or Apple-certified Lightning cable.

† Android Auto: Requires an Android phone with Android 5.0 Lollipop or higher. It is recommended to always update your phone to the latest OS release. Use the USB cable provided with your phone. Kia cannot guarantee continued compatibility.

Gross Vehicle Weight: The maximum permitted total weight of a commercial van when fully loaded, including the vehicle, driver & passengers, cargo, high voltage battery, and any fitted equipment

Kerb Weight: The weight of the electric van in running condition, including the high voltage battery, standard equipment, operating fluids and a full charge but excluding driver, passengers, cargo and any fitted equipment.

Payload: The maximum weight an electric van can safely carry, calculated as the difference between the Gross Vehicle Weight and Minimum Curb Weight.

Mass Running in Order (MIRO): The weight of the electric van in standard operating condition, including the high voltage battery, standard equipment, operating fluids and a 75kg driver, while excluding passengers, cargo and any fitted equipment.

Approach Angle: The steepest incline the electric van can drive into without the front bumper or battery underbody protection contacting the ground.

Departure Angle: The steepest incline they can exit without the rear body or underfloor battery enclosure contact, particularly when fully loaded.

Kia confidence goes further

Your new Kia PV5 is covered by a 7-Year/150,000 km (whichever comes first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

All new Kia vehicles powered by a high-voltage drive battery come with a 8-year/160,000 km (whichever comes first) warranty that covers components found in the drive battery case. In the event that your vehicle becomes immobile due to a high voltage battery or system failure, we'll cover the cost of the tow to the nearest authorised Kia dealer.

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be dispatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.

Your new PV5 comes with a complimentary 6-year subscription to Kia Connect and Over-the-Air (OTA) Updates. Synchronise destinations, check the vehicle status, control certain vehicle functions and more with the Kia Connect app.

Movement that inspires
